Gary Bobker, The Bay Institute  
David Yardas, EDF  
Ronnie Weiner, NRDC  
c/o The Bay Institute  
625 Grand Avenue, Suite 250  
San Rafael, CA 94901

Dear Mr. Bobker, Mr. Yardas and Ms. Weiner:

During the foundational steps in the CALFED Bay-Delta Program last fall, we received many comments regarding draft problem statements, draft objectives and geographic scope of problems and solutions. Thank you for the comments you provided on these topics. Each of your comments is under consideration by Program staff and consultants working on Program development.

Rather than respond individually at that time to each of the comments we received, we believed it would be more meaningful to incorporate comments into a summary report containing final draft statements of problems, objectives and geographic scope. Completion of the draft summary report has taken longer than we anticipated, and we apologize for not responding to your comments sooner. We anticipate that a draft summary report on problems and objectives will be completed soon. As soon as this report is available, we will send a copy to you.

Again, we appreciate your interest in the CALFED Bay-Delta Program, and look forward to your continued involvement in this important effort.

Sincerely,

Lester A. Snow, Executive Director  
CALFED Bay-Delta Program
